

Worklet Details

1. Worklet ID: 24VI14MSRIT
2. College Name: MS Ramaiah Institute of Technology

KPIs achieved till now

- OpenCV implementation of Multiplication, Division, Normalisation and denormalisation along with NEON implementation.
- Image processing algorithm implementation using opencv - LIME, DUAL, WTHE, BM3D
- NEON Implementation of WTHE and LIME along with partial implementation of BM3D

Any Challenges/ Issues faced

- Implementation of Block Matching from scratch involved multiple functions to be written from scratch.

Next Steps

- Evaluation of the NEON instructions for LIME and WTHE
- Evaluation of changes done in Mathematical Operations

Key Achievements/ Outcome till now

- Understanding the NEON Instruction setting
- NEON Implementation of Multiplication, Division, Normalisation and denormalisation.
- NEON implementation of WTHE and LIME
